

My philosophy for building software is beauty in simplicity whilst keeping **chaos** and **complexity** to a minimum.

I want **your product or service** to be renowned for its speed, simplicity, and ease of use.

Experience

Aug 2022 - Jun 2026

3.5 years

Lead Maintainer • [WebTUI](#) (★ 2.4K+)

Apr 2025 - Present

- Created WebTUI as a hobby project
- Researched and applied modern, advanced CSS techniques
- WebTUI is actively being maintained in an organized manner

Mobile & Web Engineer • [Fedi](#)

Nov 2023 - Jun 2026

- Lead and assisted building core features including [Multispend](#), [Mini Apps Catalog](#), [Spaces Generator](#), [AI Assistant](#), developer APIs, the in-app wallet, secure e2e encrypted chat, payments, and more
- Maintained and improved the Mobile App and [Web App](#)
- Traveled the world to attend bitcoin-related conferences with the team

Support Engineer • [Replit](#)

Aug 2022 - Aug 2023

- Built and maintained internal support and anti-abuse tools
- Created workflows to reduce friction between users and support
- Documented early AI features and various product aspects
